Commodity Credit Corporation

Suppl. ISR-Key 1-32

SALES REPORT FOR JULY 5, 1945

GRAINS, CEREALS, FEEDS & SEEDS

The U.S. Dept. of Agriculture has been given the responsibility of disposing of all government-owned food stocks and related agricultural products which are no longer needed by US Military Forces or for other war agencies. To avoid deterioration and to balance supplies with needs, some stocks of food and other agricultural products are being returned to civilian trade channels. In the re-sale of these stocks--which are never large in comparison with the total supply--it shall be the policy of the USDA to use established trade channels and to use every effort to avoid disrupting regular markets. These reports of sales of such stocks enable producers, processors, vendors and others to follow current sales and to know what commodities are being sold, what quantity, and at what prices.

Richard W. Maycock  
Director of Supply
